RESTRICTION OF INVENTION

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1 to 8, 19 and 20, drawn to a thin film laminate, classified in class 428, subclass 694TM.
  - II. Claims 9 to 18, drawn to a method of manufacture, classified in class 427, subclass 127.
  
2. The inventions are distinct, each from the other because of the following reasons:

Inventions of Group II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product as claimed can be made by another and materially different process such as heat treating a layer prior to deposition on to a substrate.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their differing classifications adding an undue

burden on examination and recognized divergent subject matter, restriction for examination purposes as indicated is proper.

A telephone call was made to *Benjamin T. Queen II* on December 21, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is also reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

### CONCLUSION

The claims are 1 to 20.

- Restriction has been required.
- No claim has been examined in this action.
